## END USER LICENSE AGREEMENT

### Software license agreement for RadaeePDF SDK, formerly PDFViewer SDK

Please read carefully: by using the library (as defined below) and/or clicking on the '**accept**' button below, you (either on behalf of yourself as an individual or on behalf of an entity as its authorized representative) agree to all of the terms of this end user license agreement regarding the use of the software. If you agree with all of the terms of this agreement, click on the '**Agree**' button: you will be able to download the SDK.

#### 1) GRANT OF LICENSE:

Subject to the terms below (the 'Agreement'), Radaee Studio ("Radaee") hereby grants you a non-exclusive, non-transferable license to use the dynamic library RadaeePDF SDK (the 'Software').

Here Radaee is represented by GEAR.it s.r.l., Italy ("GEAR.it").

This EULA applies to the product RadaeePDF SDK, formerly RadaeePDF SDK.

1.1 You are permitted to use the software for development and internal purposes for free and without developers number limitation.

1.2 The Software can be distributed in your applications only with a valid license. You can share the full SDK package inside your company or working team. Any other distribution, transmitted via email, physical media, website or other electronic delivery system is not allowed.

1.3 You may copy the Software for back-up or archival purposes.

1.4 The software can be used to create applications without any limitations. Applications using unlicensed version of RadaeePDF SDK shall be used only for development, testing, demoing purposes. Developers can distribute, publish, sell application containing licensed RadaeePDF SDK. Each license will be strictly tight to a unique application package.

1.5 Each application, identified by a unique application package name (on Android), bundle id (on iOS), unique name/uuid (on Windows8/RT/WindowsPhone) needs a single commercial license. The developer can then distribute that licensed application on the Google Market Play, other services and marketplaces or directly with hand setup on end user devices.

1.6 For the avoidance of doubt, the delivery for use by third parties is not covered by the free use license.

1.7 Each license should be tight to a single self contained application: no external plugins, software module, printer driver (i.e.: via Android intent mechanism) should contain the RadaeePDF SDK binary library, java code or activation key.

1.8 OEMs, device manufacturers and distributors need a special “OEM license” to be able to distribute applications containing RadaeePDF SDK library bundled with their own devices. To obtain the correct license you must write to [sales@androidpdf.mobi](mailto:sales@androidpdf.mobi)

To know the correct price for this supplementary use, write to [sales@androidpdf.mobi](mailto:sales@androidpdf.mobi).

1.9 The dynamic library, when packaged within your binary application, may be redistributed royalty free, as long as it is produced using a licensed version of the Software.

1.10 Developers should use, modify and extract any part of the source code they will find in the original distribution package (i.e.: demo project).

1.11 Doing any reverse engineering techniques on binaries, compiled code and native libraries is explicitly forbidden.

Developers who bought Professional or Premium license are eligible to get source codes from Android Java wrapper and interfaces.

1.12 Anyway, GEAR.it and Radaee are not liable for any claim, direct or indirect, and damages resulting from the use of the product arising out of this agreement, except if it is specified and extraordinary allowed. For that product GEAR.it and Radaee are not able to provide support and guarantee its good use.

1.13 Every developer and customer is eligible to receive software update for free.

Licensed version of the library will stay still valid from a RadaeePDF SDK version to a newer one.

Software activation keys won't be affected by software updates.

**2) TITLE:** You acknowledge that no title to the intellectual property in the Software is transferred to you. Title, ownership, rights, and intellectual property rights in and to the Software shall remain that of Radaee and GEAR.it. Copyright and patent laws of Italy and international treaties protect the Software.

## 5) TERMINATION

The use of the SDK and its license have no time limit.

Anyway, this Agreement shall terminate automatically if you fail to comply with the limitations described in this Agreement. No notice shall be required to effectuate such termination. Upon termination, you must remove and destroy all copies of the Software.

In the event of failure to destroy all copies of the Software, GEAR.it reserves the right to take legal action for damages.

For the avoidance of doubt, failure to pay invoices, sharing of license between applications, and/or reselling of license will result in termination of this agreement.

If you fail to pay for the activation key for the use of the license to third parties, as provided for in paragraph 1, GEAR.it reserves the right to take legal action against you for recovery of the debt and any eventual damages.

3 Standard licenses	$\$605 \times 3 = \$1815$	2 Standard licenses	$(\$605 \times 3) - (\$705 \times 1) = \$1110$ <b>not</b> $\$605 \times 2 = \$1210$
